

Organising Committee

Carlo Di Mario, London, UK
Jean Fajadet, Toulouse, France
Stephan Windecker, Bern, Switzerland

Invited International Faculty

Adrian Banning, UK
Emanuele Barbato, Belgium
Carlo Di Mario, UK
Bruno Farah, France
Douglas Fraser, UK
Eulogio Garcia, Spain
Anthony Gershlick, UK
Lars Hellsten, Sweden
Benno Hennen, Germany
Petr Kala, Czech Republic
Yves Louvard, France
Iqbal Malik, UK
Goran Olivecrona, Sweden
Stuart Pocock, UK
Katie Qureshi, UK
Bernhard Reimers, Italy
Horst Sievert, Germany
Rainer Wessely, Germany
Christopher Wolf, Austria
Azfar Zaman, UK

Course Information

Registration:

To register go to: <http://www.cardiofellows.org>
Registration fee is € 100 (100 GBP) which includes a lunch on Day 1 and Day 2 and coffee and tea on both days of the course.

Course organizers:

CHOICE LIVE
E-mail address: pat.pokorny@choicelive.com
Tel.: + 44 (0) 1462 471849
Fax: + 44 (0) 1462 452562

Venue:

Royal College of Physicians
11 St Andrews Place
Regent's Park
London NW1 4LE
United Kingdom
Tel.: + 44 20 7935 1174
Fax: + 44 20 7486 3729

Educational Sponsorship:

The course is sponsored by Cordis Cardiac & Vascular Institute.

CCVI Contacts:

Michael Spengler, Manager CCVI, EMEA & DACH
Liliane Cuccu, Events Manager Cordis EMEA

6th European Interventional Cardiology Fellows Course

Royal College of Physicians
London, UK, 1-2 December 2011

Course Directors:

Carlo Di Mario, UK
Jean Fajadet, France
Stephan Windecker, Switzerland

The Course is organised by the European Association of Percutaneous Cardiovascular Interventions (EAPCI), a Registered Branch of the ESC.

Course Notes

Building on the success of the previous programs, the 6th European Interventional Cardiology Fellows Course is a 2-day meeting for cardiology fellows who have been accepted for training in interventional cardiology, are performing their period of training or young cardiologists who have recently completed their training or wish to refresh their interventional education.

Organised on behalf of the European Association of Percutaneous Cardiovascular Interventions (EAPCI) the course draws upon the skills and expertise of an international faculty. The format consists of didactic lectures, pre-recorded cases, and an innovative case review session that allows delegates to interact with the faculty and learn by experience.

Professor Carlo Di Mario

On behalf of the Organising Committee

For those members of the EAPCI (<http://www.escardio.org/communities/EAPCI/Pages/membership.aspx>) the speaker presentations will be posted on the EAPCI website within 2 weeks of the course. Membership of EAPCI is free.

THURSDAY, 1st DECEMBER 2011

SESSION 1 Getting the basics right Carlo Di Mario / Petr Kala

08.30	Welcome	Carlo Di Mario
08.45	Radiation Risk Management: How to measure. How to reduce	Lars Hellsten
09.15	Contrast Nephropathy: risk stratification and prevention	Katie Qureshi
09.45	Vascular access: the key to a successful procedure Part I What does radial access offer?	Douglas Fraser
10.15	Vascular access: the key to a successful procedure Part II What does femoral access offer?	Petr Kala
10.45	Coffee break	

SESSION 2 The challenge of bifurcation lesions and CTO Lars Hellsten / Yves Louvard

11.00	A Statistical Critique of Recent Interventional Cardiology Trials	Stuart Pocock
11.30	Bifurcation lesions	Yves Louvard
12.00	Chronic Total Occlusion	Goran Olivecrona
12.30	Lunch	

SESSION 3 Imaging: A picture paints a thousand words Carlo Di Mario / Bernhard Reimers

13.15	When and How to do and interpret FFR measurements	Emanuele Barbato
13.45	What does IVUS bring to the interventionalist?	Adrian Banning
14.15	OCT: clinical tool or research device?	Christopher Wolf
14.45	Coffee Break	

SESSION 4 Expanding indications for the interventionalist Horst Sievert / Eulogio Garcia

15.00	Valve disease: percutaneous treatment	Carlo Di Mario
15.30	RF ablation of renal artery	Horst Sievert
16.00	Left atrial appendage closure	Benno Hennen
16.30	Closure of paravalvular leak	Eulogio Garcia
17.00	Peripheral indications for the interventional cardiologist	Bernhard Reimers
17.30	Rotablator, cutting and scoring balloons, filters, etc.	Iqbal Malik
18.00	Summary & Close Day 1	

FRIDAY, 2nd DECEMBER 2011

SESSION 5 Acute Coronary Syndromes Anthony Gershlick / Azfar Zaman

08.30	Non-STEMI and other ACS	Anthony Gershlick
09.15	STEMI	Azfar Zaman
10.00	Left Main Disease	Bruno Farah
10.45	Coffee Break	

SESSION 6 Bruno Farah

11.15	Chronic stable coronary artery disease: Medical Rx versus revascularization	Carlo Di Mario
12.00	Interventional Pharmacology	Azfar Zaman
12.45	Lunch	

SESSION 7 Rainer Wessely

13.30	Science on stents – the very latest update	Rainer Wessely
14.15	Surgery vs PCI in multi-vessel disease	Bruno Farah
15.00	Summary & Close	Carlo Di Mario
